

## Regulation on credits

Your active contribution to ASAM is highly valued – not only intellectually but also in monetary terms.

You can earn credits towards your membership fee if you are a member in one of our bodies or if a standard<sup>1</sup> developed by your project group gets released. The amount of your credit depends on your membership class.

Credits for your engagement in a given year will be accounted for in the subsequent year in your membership fee invoice.

Credits for multiple engagements will be combined, but they are limited to a maximum amount per calendar year.

For details, please see the following table:

	Member class			
	AE / BE / CE D / E	F	G	AP / BP / CP / H
BoD <sup>2</sup> membership	2,500 €	2,500 €	650 €	0 €
TSC <sup>3</sup> membership	2,500 €	2,500 €	650 €	0 €
Release of a standard <sup>1</sup> developed by project groups of which you are a member. Limited to one credit per calendar year.	2,500 €	2,500 €	650 €	0 €
Maximum total credit per calendar year	5,000 €	2,600 €	650 €	0 €

### Notes

1. Credits will only be granted for the release of standards that may be purchased for a fee (for members, the fee is waived). No credits will be given for standards that are free of charge.
2. Board of Directors: credit is granted for each calendar year in which the position was held for more than six months.
3. Technical Steering Committee: credit is granted for each calendar year in which the position was held for more than six months.
4. Credits are subject to review and approval by the CTO.
