

Session A

Roadmap Options & Proposed Project Types for ASAM OpenScenario

Pierre R. Mai

By Order Of ASAM e.V.

17.01.2019

Höhenkirchen, Germany

What Project Types Exist at ASAM?

Standard Development Projects

- New, major, minor and revision development of standards.
- Result: Standard.

Concept Projects

- Evaluate, discuss and specify concepts for major extensions of a new or existing standard.
- Recommended project type, if experts do not feel ready to write a standard, or to organize projects that work in parallel for one standard.
- Result: Concept paper.

Implementation Project

- Create supplementary products that support the application of ASAM standards.
- Typically supported by a service provider, who does the actual implementation work.
- Result: Source code or tool.

What Projects Are Needed for OpenScenario?

Standard Development Projects

- Standard Transfer Project: Write missing chapters, clarifications on semantics and syntax, formal data model.
- Standard Further Development: New feature concepts, implementation of new concepts into the standard.

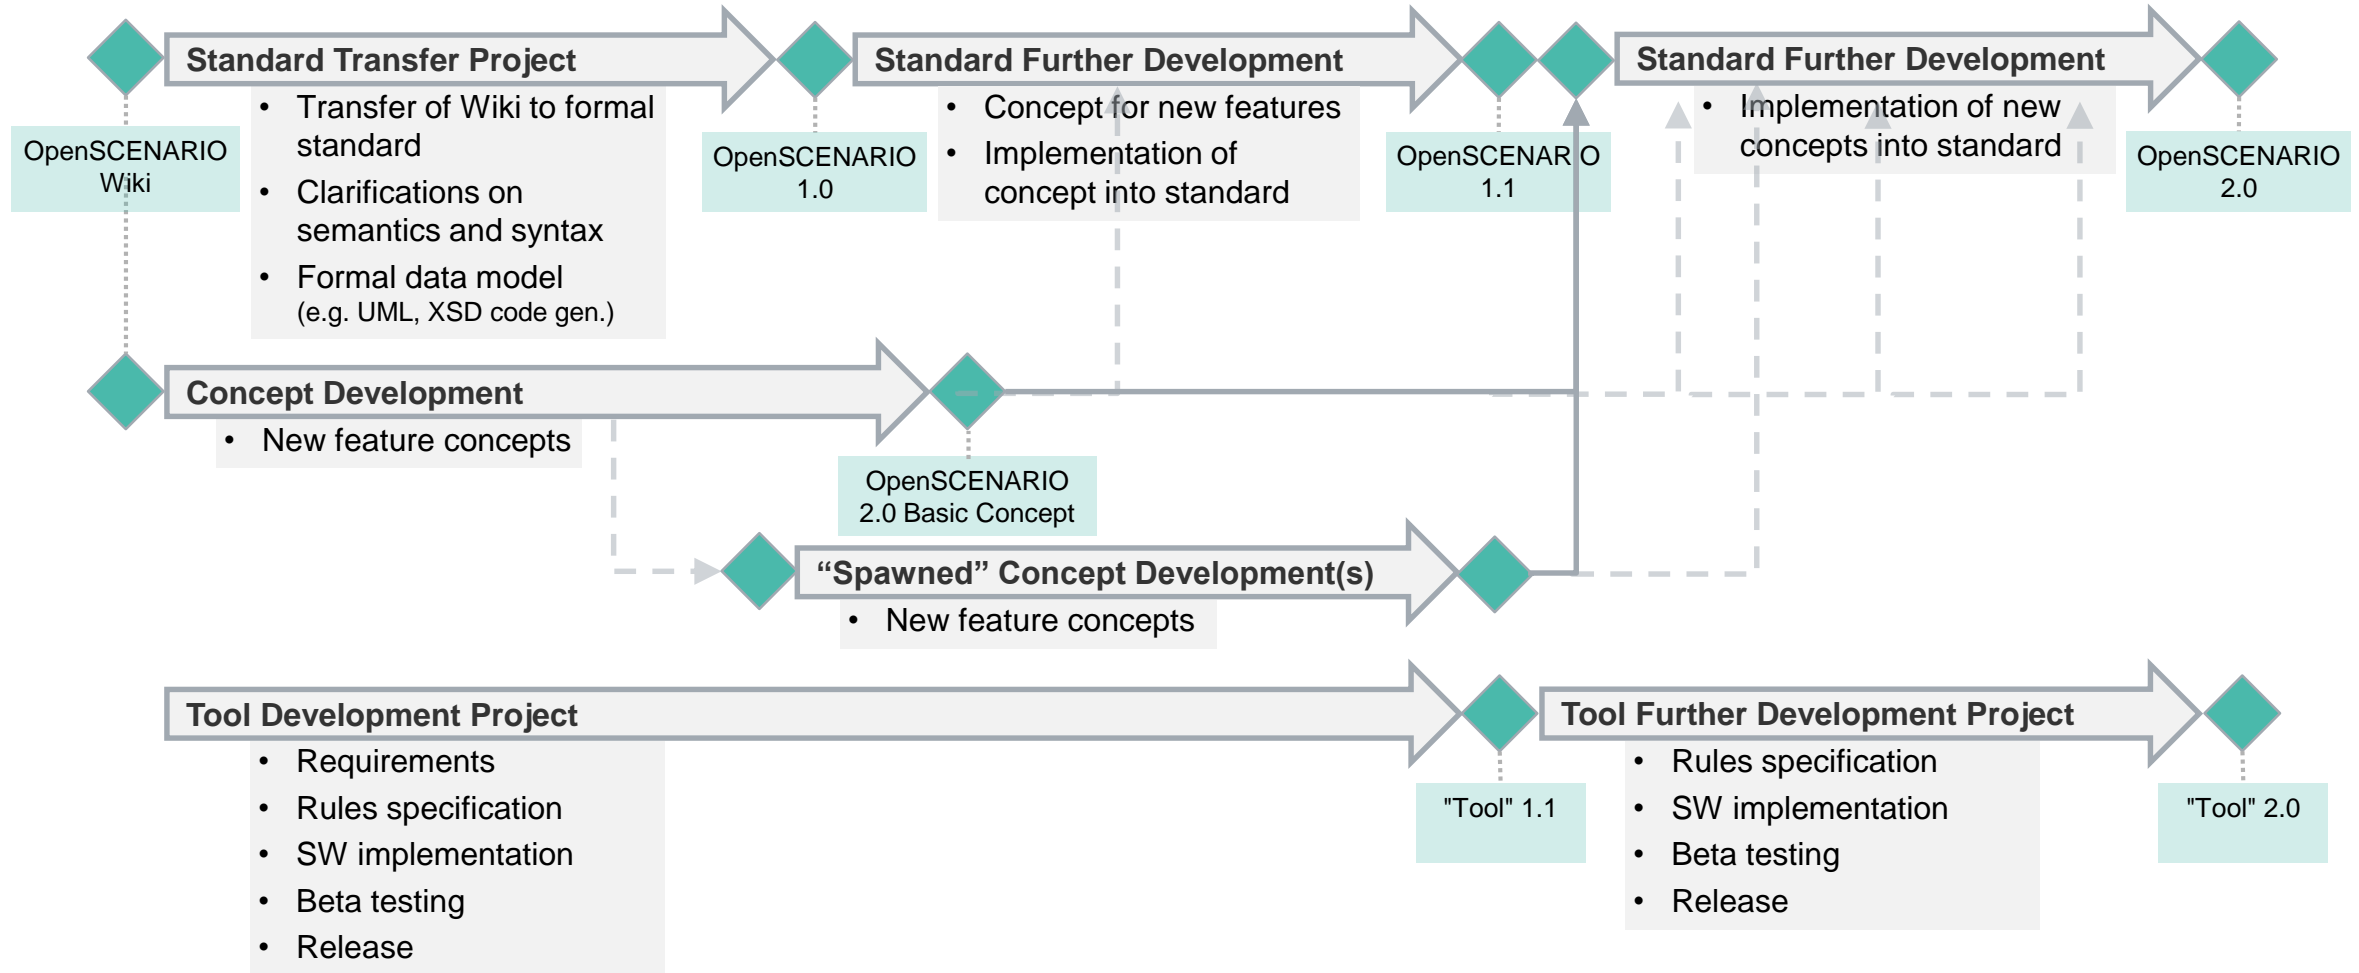

Concept Projects

- Concept Development: New feature concepts.

Implementation Project

- Tool Development: Requirements, SW implementation, beta testing, release.
- Tool Further Development: ditto.

ASAM OpenScenario Roadmap – Parallel Concept Development

Discussion

Questions or comments to the proposed roadmaps?

- No major issues with general roadmap.
- Depending on resources available through industry participation, a split into multiple concept projects to focus on sub-areas can occur after the general big picture is defined in central concept project.

Thank you!

Pierre R. Mai
