Coffee Break
We continue at 14:30 CEST

Coffee Break
We continue at 16:00 CEST

Open Discussion – pain points and improvements

What are your pain points when using OpenSCENARIO 1? Why aren't you using OSC1?

Contribute to Project Proposal

Open to public

We use DocsAsCode!

- descriptive plain text code rendered to rich HTML document (Tool: asciidoc)

- In code repository (Tool: GitLab)

Contact me (stefan.cyliax(at)asam.net) to get access to ASAM Gitlab!

To make changes:

- Clone repository

- Create branch (help)

- Make changes

- Commit changes

- Push changes to repo

- Create merge request in GitLab which allows review process

ASAM

Project Lead Candidates and Nomination

Tasks of the project leader (support by ASAM office)

- Coordination of the project group (meetings, technical content, milestone management)
- Interface between project and ASAM TSC (status updates, releases)
- (optional) Interface between project and ASAM Coordination Group:Simulation (alignment within OpenX). This can also be fulfilled by another project representative.

Submit of your candidacy for project lead by July 20th, 2021

- Email a short summary of your profile (1-2 slides) to stefan.cyliax(at)asam.net (profile will be shared with the public for voting of the project lead)

- Voting on project lead will be done in project kickoff meeting.
- Each company committing resources has one vote (outliers that have significantly more or less commitment than others will be weighted accordingly - the details of this will be shared prior to the vote)
- The project will not be able to start until a project lead is defined.

Enrollment and Commitments

Enrollments starts tomorrow! See ASAM Website.

We would like to ask you to contribute! Without your contribution, the standard will not evolve.

- We recommend a minimum of 25 man-days per company for meaningful contribution!

Commitments in ASAM Gitlab

To give your commitment, please edit signups file in the ASAM Gitlab.

Ýou can use the build-in editor or Web IDE!

For access to ASAM Gitlab, feel free to contact me at stefan.cyliax(at)asam.net.

Service Provider Estimates

New process for this project

Previous estimates done in a proposal workshop were inaccurate with lead to inadequate budgets.

New process for this year:

Estimates will done by ASAM Office based on

- Work packages and what deliverable we need to change,

- Involvement of staff technical writer,

- Experience from previous projects.
