

ASAM Regional Meeting South Korea 2023

Joining and contributing to ASAM

Dorothee Bassermann
Marketing Manager, ASAM e.V.

September 13th, 2023

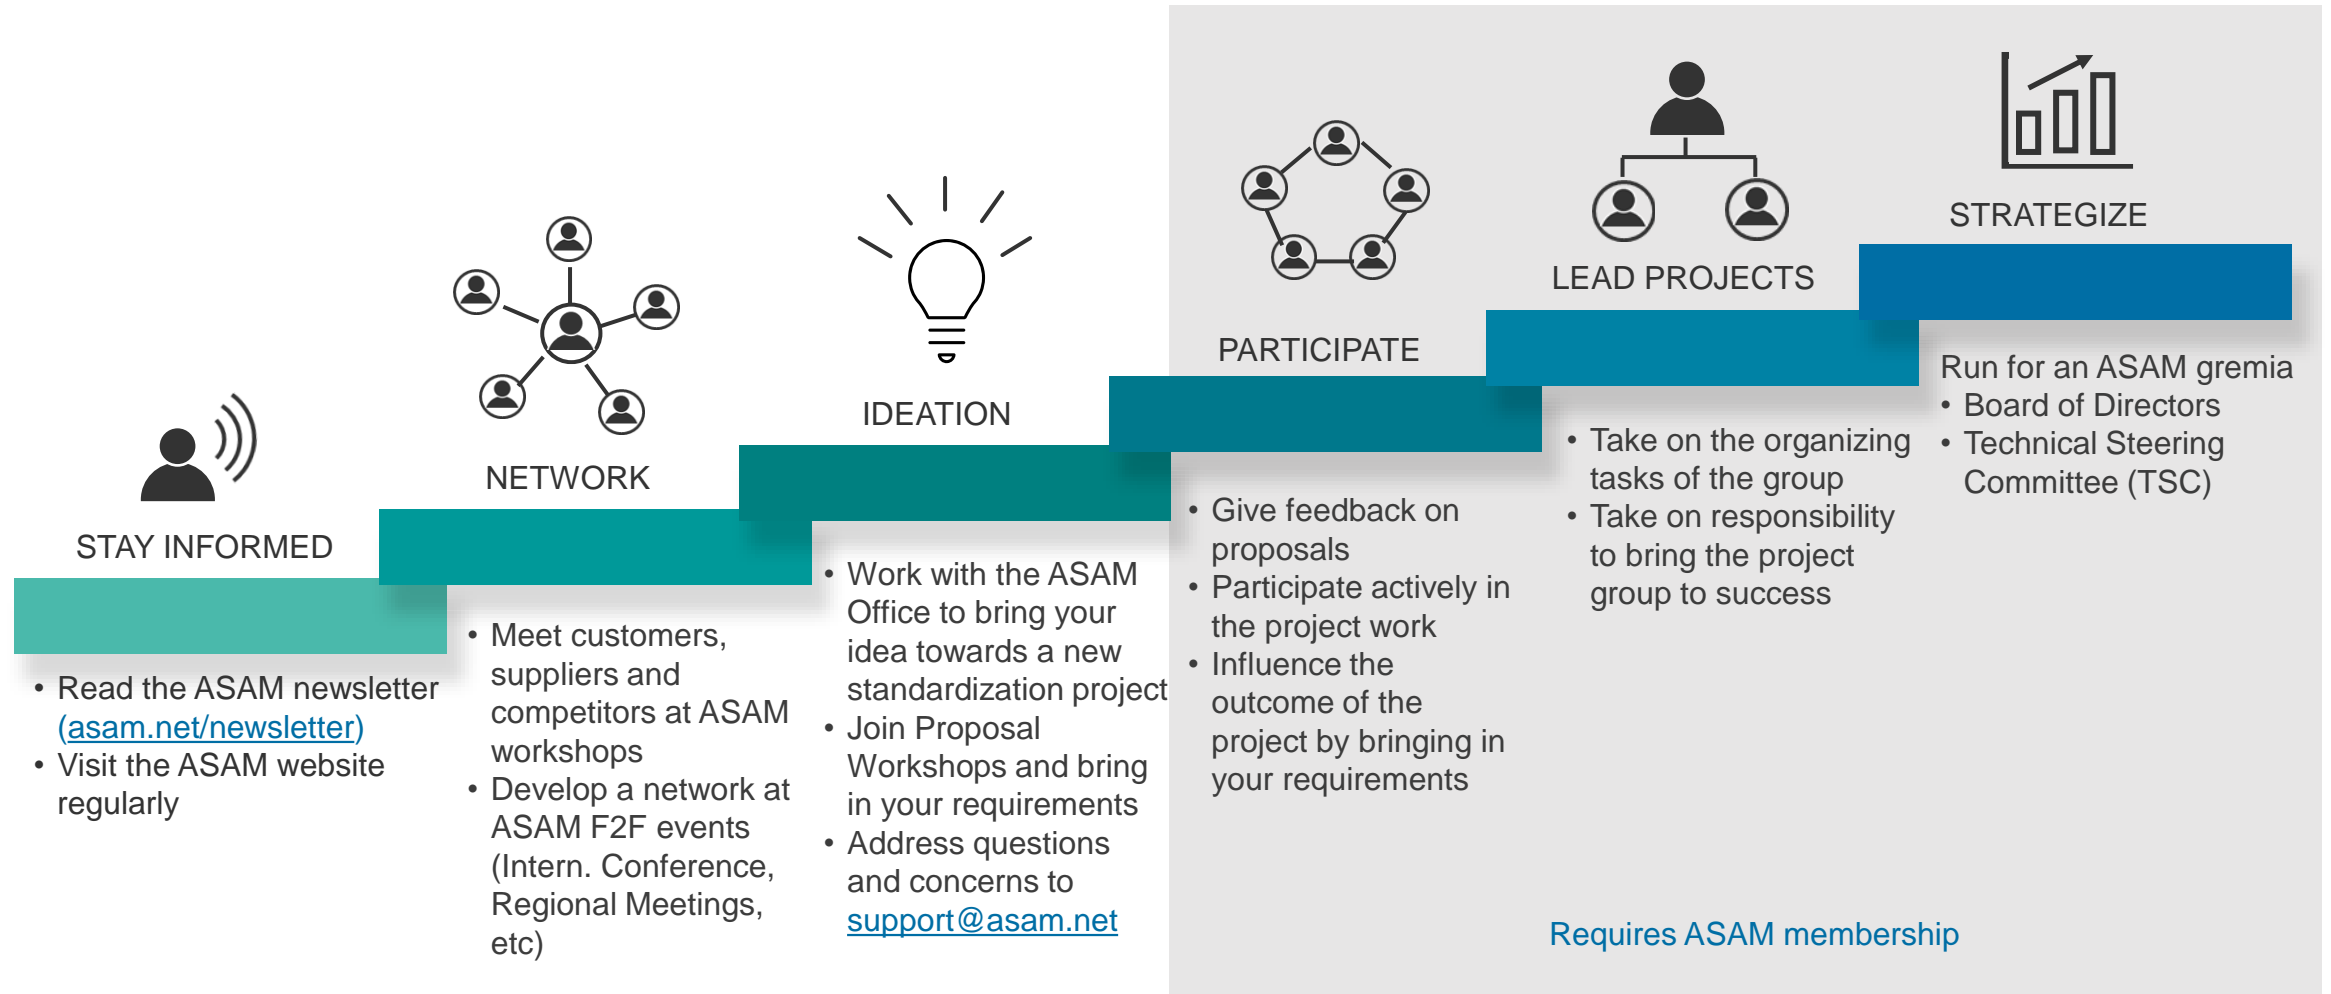

Jeju, KR

Association for Standardization of
Automation and Measuring Systems

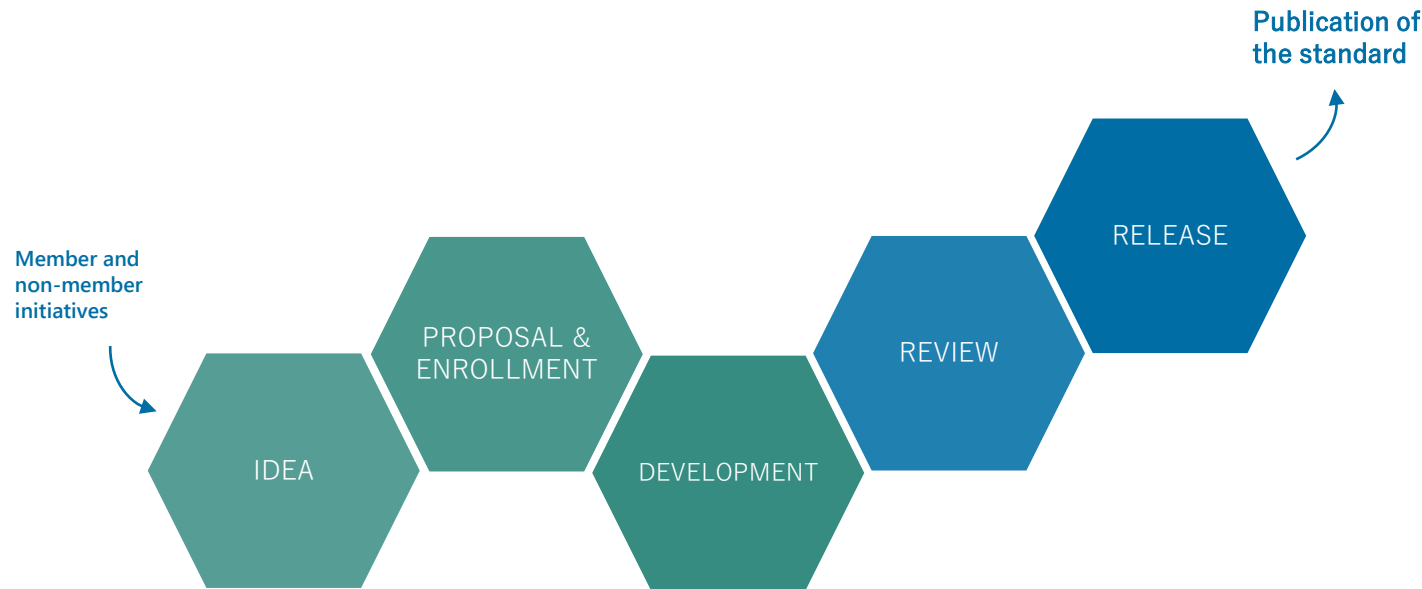

How to get involved in ASAM

There are different levels of getting involved with ASAM, depending on your time and needs.

ASAM Development Process

From the first idea to the publication of a standard

Guiding Principles:

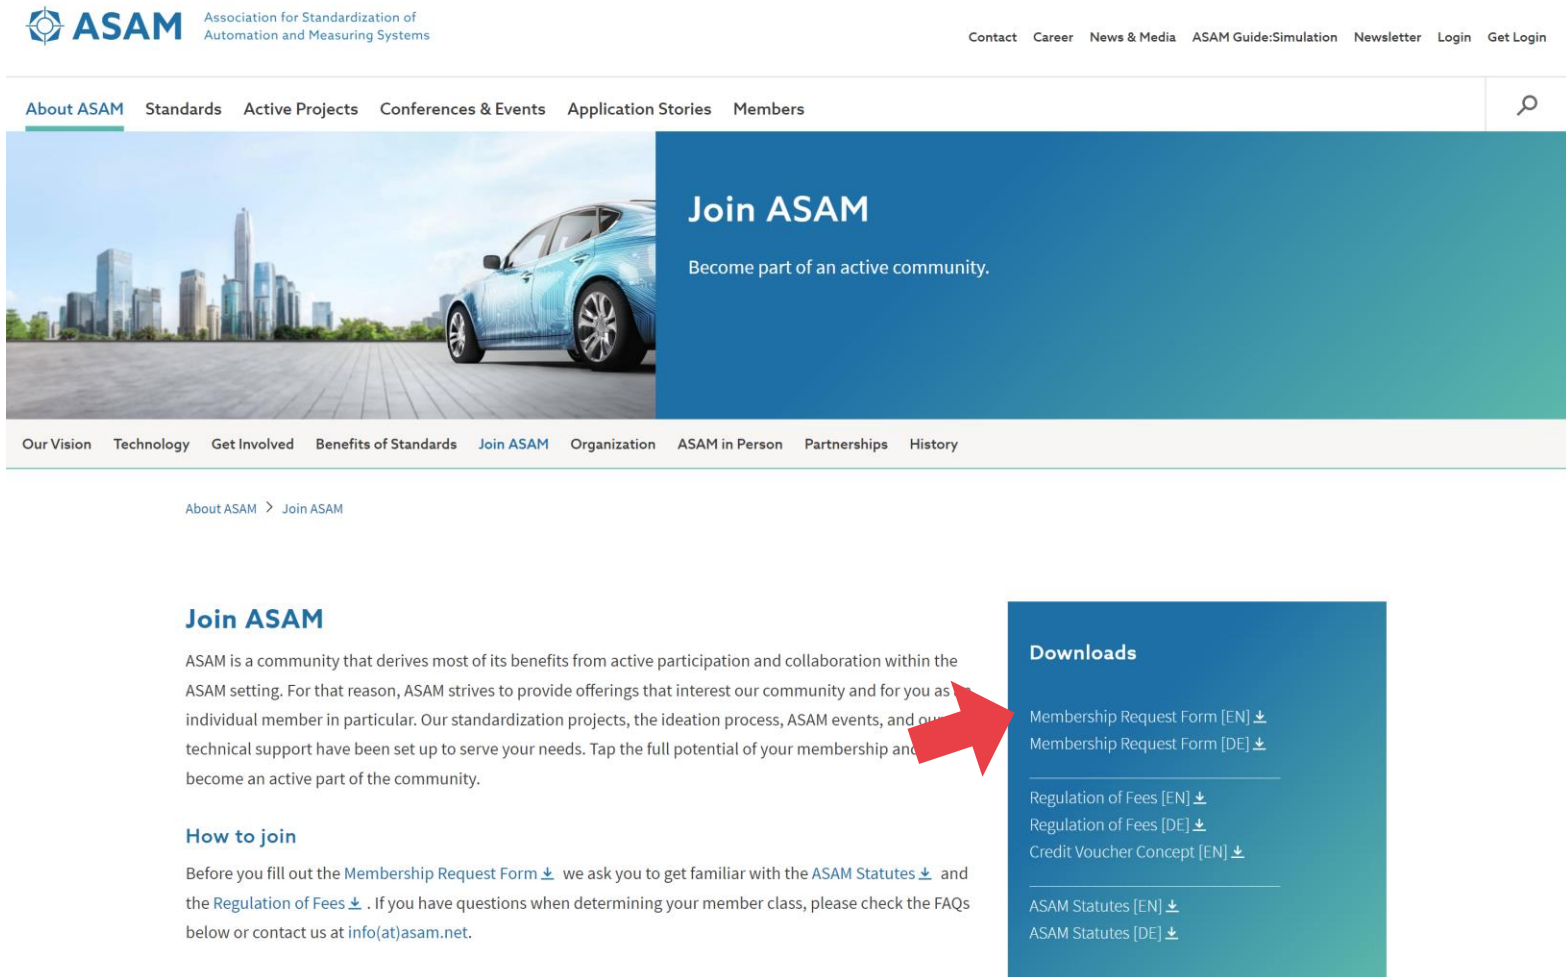

- **Member-driven**
Initiatives and decisions are taken by the member companies.
- **Open exchange**
ASAM requests open exchange among all stakeholders.
- **Domain expertise**
ASAM has a global network of domain experts to develop standards
- **Flexible processes**
ASAM has lean yet flexible process structures leading to short development times
- **Project support**
Experienced Technology Managers support the project groups

Why joining ASAM

Benefits of an ASAM membership

- Fast development cycles (approx 12 – 18 months)
- State of the art work processes for standard development (software-driven methods)
- Organizational support of the project groups
- Participating in project groups allows fast implementation and usage of the standards (first mover advantage)
- Focus on inter-standard alignment for an easier usage of the standards
- Access to a network of experts within the membership

About ASAM > Join ASAM

Join ASAM

ASAM is a community that derives most of its benefits from active participation and collaboration within the ASAM setting. For that reason, ASAM strives to provide offerings that interest our community and for you as an individual member in particular. Our standardization projects, the ideation process, ASAM events, and our technical support have been set up to serve your needs. Tap the full potential of your membership and become an active part of the community.

How to join

Before you fill out the [Membership Request Form](#) we ask you to get familiar with the [ASAM Statutes](#) and the [Regulation of Fees](#). If you have questions when determining your member class, please check the FAQs below or contact us at [info\(at\)asam.net](mailto:info(at)asam.net).
