16:25	16:40	00:15	Next steps & Closing	ASAM

Goals of this Workshop

- Get you up to speed on this proposal and the relevant ASAM processes so that you can decide whether you and your companies should get involved
- Joint review and extension of use cases and requirements for this standard
- Overview of the current state of qc4openx (prior to transfer to ASAM by CARIAD)
- Sketch a first project roadmap including a release schedule
- Clarify the next steps for this activity under ASAM
