

ASAM Telematics Standards

Results & Next Steps

31 March 2016

Results from First Workshop : Participants

OEMs:

DAIMLER
NAVISTAR
PACCAR

Tier 1's:

 **BOSCH**

EATON
WABCO

Others:

CT[®]
UNLOCKING THE POWER OF DATA

Participants not in attendance:

Other global organizations expressed interest in participating, but were unable to attend this workshop

Results from First Workshop : Goals, Results, Next Steps

Goals

#1

Evaluate if OEMs and Tier 1 providers are interested in standardization in the telematics space

#2

Explore the role/expectations of the telematics box in the field

#3

Gather, align, and prioritize use cases from the end user perspective

#4

Develop "Champion" charter

Results

Interest

The group is interested in proceeding to standardize aspects of the "telematics" 2-way communication.

Top Use Cases (4 of 18):

- Standard method to interface at the cloud (ex: cloud to cloud) to enable faster implementation, reduce work, etc. Included methods to publish enriched data make to clouds (TSPs, OEMs, Fleet Management Systems)
- Authentication Standardization for Onboard TCU Interaction with Vehicle Component Control Units
- Remote Programming
- What standards should telematics hardware providers comply with.

Next Steps

TSPs & Tool Providers

The group decided that Telematics provider participation is critical to future development.

Next Meeting

Seattle, Minneapolis, or Dallas, USA
End May / Early June 2016

Communication

Email or Soon to come Forum
Email: joseph.sparacino@asam.net
Watch: asam.net

To Do

Establish "Champion" Charter
Guiding document for group

Results from First Workshop : Next Steps

Organization

Output

Project Leader
(elected from Steering Group)

ASAM Office
(Promotion, Guidance, Assistance)

Steering Group
OEMs, Tier 1 & 2s, TSPs, and Tool Suppliers

Documented use cases where standards would reduce cost, man power, or effort

Documented use cases where standards would reduce cost, man power, or effort

Documented use cases where standards would reduce cost, man power, or effort
